*Including sub limit of subordinate bonds of ₹ 4,500.00 crore

Detailed rationale and key rating drivers

The reaffirmation and assignment of the ratings for various instruments of Housing and Urban Development Corporation Limited (HUDCO) continue to derive strength from Government of India (GoI) being a majority stakeholder (81.81% as on June 30, 2022) and HUDCO being strategically important to GoI for implementation of various government policies in social housing and urban infrastructure-related sectors. The ratings take comfort from majority of the lending by the company being backed by guarantee from various state governments with the company receiving budgetary provision, wherever required, from the government for their respective debt servicing. The ratings also draw comfort from the company's diversified resource profile, healthy-capitalisation metrics and adequate liquidity profile.

¹Complete definition of the ratings assigned are available at www.careedge.in and other CARE Ratings Ltd.'s publications

Owing to its public policy mandate with lending largely to government entities, HUDCO's profitability has been moderate over the years. Though HUDCO lends to government agencies and/or agencies backed with guarantee from the government, the weak financial profile of many of the state governments remains a risk along with state-wise concentration risk in Telangana (18% of asset under management [AUM]) and Andhra Pradesh (AP; 15% of AUM) as on March 31, 2022. The ratings continue to factor in its moderate asset quality with gross non-performing assets (GNPA) ratio of 3.58% and net NPA (NNPA) ratio of 0.51%, as on March 31, 2022.

HUDCO has been reporting slow growth in gross loans since FY20 (refers to the period April 1 to March 31) due to tepid rise in disbursements owing to COVID-19 pandemic and constrained initiation of developmental projects by central and state governments. In FY22, the loan book grew by 4% y-o-y to ₹76,990 crore.

Furthermore, as per the notification issued by the Reserve Bank of India (RBI) on regulatory framework for housing finance companies (HFCs) dated October 22, 2020, HUDCO does not qualify as HFC upon non-fulfilment of the criteria of having not less than 50% of the total assets by way of housing finance for individuals. In this regard, HUDCO has submitted application seeking fresh registration under the RBI as non-banking financial company - Infrastructure Finance Companies (NBFC-IFC). The operations of the company will be continued as an HFC till the time it receives approval for conversion from RBI.

Rating Sensitivities

Going forward, the ability of HUDCO to maintain its asset quality and sustain profitable business growth while maintaining majority lending backed by government guarantee and budgetary allocation/ structured repayment mechanisms, wherever required, from the government for their respective debt servicing, would be key rating sensitivities.

Negative factors – Factors that could lead to negative rating action/downgrade:

- Any material changes in the shareholding pattern and/or reduced expectation of support from GoI.
- Significant deterioration in asset quality profile.

Detailed description of the key rating drivers

Key rating strengths

Majorly owned by government and strategically important to GoI: HUDCO is majorly owned by GoI (with 81.81% stake as on June 30, 2022), with a continued expectation of timely support. HUDCO is a strategically important entity for GoI and has played a significant role in the implementation of its various initiatives in urban infrastructure and social housing projects. HUDCO is the central nodal agency (CNA) for government scheme of 'Housing For All' and is actively involved in action plan schemes like *Jal Jeevan Mission* (JJM). Furthermore, with substantial investment expected under National Infrastructure Pipeline (NIP), HUDCO is expected to actively participate in meeting the said requirements. HUDCO lends under these schemes as well as provides consultancy services for appraisal of the projects sanctioned under the schemes.

Being majorly owned by the GoI, HUDCO receives its support in terms of board representation with two government nominee directors (besides four independent directors presently and three functional directors, including Chairman and Managing Director), business growth, access to low-cost funds and foreign currency lines from Asian Development Bank (ADB), Japan Bank for International Cooperation (JBIC) (both guaranteed by GoI) and United States Agency for International Development (USAID) (not guaranteed by GoI), etc., as well as refinance assistance from National Housing Bank (NHB)/ India Infrastructure Finance Company Ltd (IIFCL).

Healthy loan book growth with majority towards government sector: The asset under management (AUM) of HUDCO has been rising over the years, however, it dipped in FY21 due to COVID-19, and picked up again in FY22 at ₹78,513 crore, up by 4% y-o-y. The housing segment forms majority of the AUM with 57%, followed by Urban Infrastructure forming 43% of the AUM and balance by HUDCO Niwas as on March 31, 2022. The proportion of housing segment has been reducing over the years due to subdued demand since COVID-19, and the proportion of urban infrastructure is rising in line with the government's increased focus towards infrastructure development and HUDCO sanctioning loans under various infrastructure schemes. As on June 30, 2022, the company had an AUM of ₹77,276 crore.

HUDCO has majorly lent to the government sector forming 97% of AUM as on March 31, 2022, as it had ceased its lending towards private sector since 2013. Furthermore, 91% of gross loans as on March 31, 2022, have been secured by government guarantee leading to lower credit risk. The company faces regional concentration particularly in Andhra Pradesh and Telangana; however, it has special relaxation from NHB with respect to credit concentration norms up to 140%, 175% and 120% of net owned fund (NOF) in the states of Andhra Pradesh, Telangana and Uttar Pradesh (UP), respectively. Although as per directions from NHB, the same has to be brought down to 100% by 2023.

Diversified resource profile: HUDCO has a diversified funding profile with funds raised through bonds (tax-free and taxable), bank loans, commercial paper, refinance lines from NHB/IIFCL, public deposits and others. As on March 31, 2022, out of the total borrowing of ₹61,553 crore (+1% y-o-y), taxable bonds constituted 64% (including ₹ 20,000 crore of GoI fully-serviced bonds), tax-free bonds formed 24%, bank loans formed 7% followed by NHB/IIFCL refinance with 4%. HUDCO has stopped accepting fresh public deposits w.e.f July 01, 2019; however, redemption for the already taken deposits are being made on respective due dates. As on June 30, 2022, the borrowings stood at ₹60,088 crore.

While funds raised in FY21 were mainly through bonds (81% of the funds raised); during FY22, the company raised ₹7,083 crore in the form of bank loans (65%) and remaining through taxable bonds (35%). Subsequently, in Q1FY23, the company raised ₹4,580 crore entirely through bank loans.

Healthy capitalisation profile: HUDCO's capitalisation profile is comfortable as reflected in the capital adequacy ratio (CAR) of 64.79% as on March 31, 2022, marginally up from 64.02% as on March 31, 2021, and well above the regulatory minimum requirement. HUDCO's CAR is supported by 20% risk weight for state government guaranteed projects. As on March 31, 2022, the gearing levels stood at 4.25x improved from 4.62x as on March 31, 2021. CARE Ratings Limited (CARE Ratings) expects loan book growth to remain moderate in the medium term, and accordingly capitalisation profile is expected to remain comfortable, in line with the risk profile of its lending book.

Improving albeit moderate profitability profile: The profitability profile of HUDCO had been impacted during FY20 and FY21 due to COVID-19, however, in FY22, the profitability improved with profit after tax (PAT) improving to pre-COVID levels with ₹ 1,717 crore, up by 9% y-o-y. Owing to its public policy mandate with lending largely to government entities, HUDCO's profitability has been moderate over the years. The pre-provisioning operating profit (PPOP) for HUDCO has come down in FY22 by 3% y-o-y owing to reduced interest income (-4% y-o-y) and increased operating expenses (+2% y-o-y), but with the reversal of provisions, the company has reported increase in profit after tax (PAT). With this, the return on total assets (RoTA) improved to 2.20% as on March 31, 2022, from 2.06% as on March 31, 2021.

With higher dip in yields as compared to the cost of funds, the net interest margin (NIM) in FY22 has decreased to 3.02% from 3.15% as on March 31, 2021. Given the wholesale nature of the loan book, the operating expenses ratio remain low for HUDCO, and has been at similar level in FY22 with 0.47%. With reversal of expected credit loss (ECL), allowances due to upgrade in one restructured account to standard assets, the credit costs for HUDCO remained negative for the company in FY22 at 0.32% as on March 31, 2022.

In Q1FY23, with reversal of provisions, HUDCO reported PAT of ₹412 crore up by 2% y-o-y.

Key rating weaknesses

Moderate asset quality metrics: The asset quality of HUDCO remains moderate with improvement in the gross non-performing asset% (GNPA%) to 3.58% as on March 31, 2022, down from 4.03% as on March 31, 2021, owing to lesser slippages. With rise in the provision coverage ratio (PCR)% to 86% as on March 31, 2022 from 84% as on March 31, 2021, the net NPA% (NNPA%) improved to 0.51% as on March 31, 2022 from 0.50% as on March 31, 2021. However, as on June 30, 2022, the GNPA% rose to 3.63%, but NNPA% remained at similar levels with 0.51%.

Majority of GNPA have emanated from the private sector, with GNPA ratio for the lending to government sector being small at 0.8%, as on March 31, 2022. More than 30 days overdues (in the government sector) also remained under control at 4%, as on March 31, 2022. With majority of the NPAs in the private sector already being classified as NPA (86% of gross private loans as on March 31, 2022), and with HUDCO not doing any incremental disbursements in the private sector, further slippages from the private sector are expected to be minimal.

Concentration risk: As on March 31, 2022, the top 20 exposures made 84% of the loan book, up from 81% of the loan book as on March 31, 2021. This has increased significantly in FY19, primarily on disbursement of ₹20,000 crore in one account under extra budgetary allocation scheme (under *Pradhan Mantri Awas Yojana* (PMAY)-Urban). The repayment of this is guaranteed by Ministry of Housing and Urban Affairs (MOHUA) with semi-annually interest payment and bullet repayment of principal at the time of maturity. The high concentration as a percentage of net worth is offset by the fact that most of the loans are government guaranteed and there is budgetary allocation by governments for meeting the debt obligations of these loans.

Liquidity: Adequate

As per the asset liability management (ALM) statement as on March 31, 2022, HUDCO has reported negative cumulative mismatch for buckets from 8 days to 14 days to more than 3 years to 5 years. However, it has undrawn bank lines in the form CC, WCDL

and short-term loans amounting to ₹12,517 crore as on August 02, 2022, which if accounted for, results in positive cumulative mismatches for all buckets. With sovereign support, HUDCO can access additional fund lines from the banks and market, if the need arises.

Analytical approach:

Standalone, factoring in timely support from GoI in case of need; given HUDCO is majority owned by GoI and strategically important to GoI.

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
