#### **Qualitative Disclosure:**

Institutional set-up for the Liquidity Risk Management: HUDCO has implemented an integrated risk management approach through which it reviews and assesses significant risks on a regular basis to ensure that there is a robust system of risk controls and mitigation in place. HUDCO has a well-structured robust Risk Management Policy and Operating Manual in line with its objectives to address the various risks.

In compliance with the SEBI (LODR) Regulations, 2015, HUDCO has in place a Board level Committee under the nomenclature 'Risk Management Committee' (RMC) headed by an Independent Government Nominee Director, which reviews various decisions/ recommendations of the three sub-committees namely: -

- Assets & Liabilities Management Committee (ALCO);
- Credit Risk Management Committee (CRMC); and
- Operational Risk Management Committee (ORMC).

The Risk Management Committee (RMC), which is a committee of the Board, is responsible for evaluating and monitoring the integrated risk management system of the Company including liquidity risk. The ALCO is responsible for ensuring adherence to the liquidity risk tolerance/limits set out in the board approved Asset Liability Management (ALM) policy. The role of the ALCO with respect to liquidity risk includes, inter alia, decision on desired maturity profile for assets & liabilities, responsibilities and controls for managing liquidity risk, and overseeing the liquidity position of the company. The ALM Policy is reviewed periodically to realign the same pursuant to any regulatory changes/ changes in the economic landscape or business needs and tabled to the Board for approval.

Management regularly reviews the position of cash and cash equivalents by aligning the same with the projected maturity of financial assets and financial liabilities, economic environment, liquidity position in the financial market, anticipated pipeline of future borrowing & future liabilities and threshold of minimum liquidity defined in the ALM policy with additional liquidity buffers as management overlay.
