

In case of problem in downloading the attached file , you need to disable Popup blocker depending on the browser

- **EDGE**

The Microsoft Edge feature that blocks pop-ups is effective in preventing websites from automatically opening a new window or tab, or a partial window on top of your current web page. This feature is turned on by default.

Block or unblock pop-ups in the new Microsoft Edge

1. Open Microsoft Edge, select Menu (3 dots icon on top right corner of the browser) > Settings > Site permissions
2. Select "Pop-ups and redirects".
3. Turn on "Block" to block pop-ups and turn off to allow pop-ups.
4. You can also add specific websites, for which you want to block and allow pop-ups.

- **CHROME**

By default, Google Chrome blocks pop-ups from automatically showing up on your screen. When a pop-up is blocked, the address bar will be marked Pop-up blocked . You can also decide to allow pop-ups.

Change your default pop-ups & redirects settings

1. On your computer, open Chrome .
2. At the top right, click More  > **Settings**.
3. Click **Privacy and security** > **Site Settings**.
4. Click **Pop-ups and redirects**.

Choose the option you want as your default setting.

- **FIREFOX**

Pop-up windows, or pop-ups, are windows that appear automatically without your permission. They vary in size, but usually don't cover the whole screen. Some pop-ups open on top of the current Firefox window, while others appear underneath Firefox (pop-unders).

To access the pop-up blocker settings:

1. Click the menu button  and select Settings.
2. Select the Privacy & Security panel.
3. Under the *Permissions* section, uncheck the box next to **Block pop-up windows** to disable the pop-up blocker altogether.
4. A click on Exceptions... opens a dialog box with a list of sites that you want to allow to display pop-ups.
